# HUNS ENTER FIRST LINE TRENCH IN VERDUN REGION

### But French Counter-Attack Regains Most of Losses.

### The Gains Against Enemy At Douaumont Continue.

(By Times Special Cable.)

Paris, April 7, 2:40 p. m.—German forces have penetrated a French trench of the first line between Bethincourt and Chattan-court, according to announcement made to-day by the French War Office. This locality is in the Verdun region, west of the Meuse. A French counter-attack at once drove them back from a large proportion of the neithous thus sealed. rtion of the positions thus seized. The text of the statement follows:

The text of the statement follows:

"To the west of the River Meuse, in the course of a night attack delivered after a violent preparatory bombardment against our positions between Bethincourt and Hill No. 260, German forces made their way into a French trench of the first line on the highway between Bethincourt and Chattancourt.

"We at once made a counter-attack, which drove the Germans back from the greater part of the possessions they had been able to size. At the present time the enemy hold only certain advanced sections along a front of about 300 yards.

"East of the Meuse there has been an intermittent bombardsment, and we have continued to make progress in the communicating trenches of the enemy located southwest of the fort of Doussimont.

"There have been some artillery exchanges in the Woevre district, but the night along the remainder of the front passed quietly."

KEEP HONEST BEES.

Robbing Spreads Foul Brood— The Law in the Case.

Persons who within recent years have had foul brood in their aplaries should be particularly careful to prevent robbing during the warm days of spring. All hives where bees have died must be taken indoors away from all possible robbing. It is not enough often gain as entrance when least expected. All carrances of live colonies should be made quite small, super-berg.

Use every precaution and watchful-ness to prevent robbing. De not under any circumstances leave combs of honey out for the bees to clean up. Any honey you have is likely to con-case in your bealthy colonies. On ac-count of the prevalence of clease in unexpected places throughout the pro-vince it is never wise to feed honey to write the contract of the prevalence of the to what it is the worst of folly. Particular attention is called to

How Tercentenary of Birth Was Celebrated Here.

Was Celebrated Here.

Last evaling Mr. Jorman Lee read a very fine essay on Shakespaaro's "Merchant of Ventee" before the Menta Club of Pixe. Congregational Charca. The otdest mentioer resided the tercentomary of his birth, which was celebrated in tamilton in 1864 by a public meeting held in the Odd Fellow's Hall, John street north, near Aing William attreet. On that occupancy were supported to the common stock of our language that if a knot of citizena chatted on a street tations from Shakespeare, consciously or otherwise, used by one or more of the group. Mr. Melatosh, or the Times, direct Mesaniners Night's Deram, was performed, the whole groors may be the programme being a fitting tribute to the memory of the immortal drams the teremenance with deals.
